- DIN rail adaptor available – Part No. 907.0.071.

TR 636 top2

24 Hour/7 Day 2 Channel/Pulse
2x6A Digital Timeswitch

- 2 channels x 6(6)A loading.
- 2 channels with a total of 84 memory locations allocated between them in any proportion.

RTS113

24 Hour/Half Day and Day Omit 3 Pin
20A Round Pattern Timeswitch

Electro-mechanical round pattern double insulated time controller comes with a 3 pin wireable base. It is compatible with the base used for the single channel ON/OFF mains linked industry standard round pattern timeswitch.

- Up to 24 ON/OFF programmes in a 24 hour period.
- Half day(s) and day(s) omit facility, unlimited over a 7 day period.
- Permanent ON facility (with a prominent visual indicator) accessible without removing the transparent cover.
- Minimum ON time is 30 minutes which can be incremented in 15 minute steps.
- Transparent cover can be locked.

RTS114

24 Hour/Half Day and Day Omit 4 Pin
20A Round Pattern Timeswitch

Shares all the features and benefits of the RTS113 but has voltage free contacts and a 4 pin industry standard round pattern timeswitch base.

See page 87 for product specifications.

DQ9
