# Energy Saving Lighting Solutions

Saves Energy...Saves You Money!

## ECO Lighting

### PIR Energy Saver Floodlights

Powerful, effective and economical outdoor lighting. Ideal for enhancing the security and appearance of the home or garden, lighting the patio or illuminating the driveway.

PIR activated energy saver floodlights detect body heat movement up to 12 metres away and turn the light ON giving instant illumination for added security, using 75% less energy than a standard 150W halogen bulb.

**Saves Energy... Saves You Money!**

ECO36PIR

#### ECO36PIR 36W Energy Saver PIR Floodlight

- 75% energy saving\*.
- High output with low running costs.
- \*36W energy saving bulb provides approx. 75% energy saving compared to a standard 150W halogen bulb at approx. 25% of the running cost.
- Adjustable integral PIR detector.
- Detects body heat movement up to 12 metres away and automatically switches the light ON.
- 160° adjustable detection angle.
- Manual ON/OFF switching override.
- Light on time adjustable from 30 seconds to 7 minutes.
- Built-in sensor prevents daytime operation.
- IP44 weatherproof rating.
- **36W E.S. lamp supplied.**

### MLB360CFL 22W 360° NIGHT eye PIR Energy Saving Wall Light

- 360° PIR energy saving wall light with adjustable (pan & tilt) PIR detector.
- Low energy design – low running costs.
- All round 360° PIR detection with immediate illumination on exit and approach.
- 12m detection range.
- Light ON times from 5 seconds to 18 minutes.
- Adjustable light level control.
- IP55 weatherproof rating.
- Total PIR switching: 3kW halogen/incandescent, 600W fluorescent/low energy.
- Corner and surface mount wall brackets supplied.
- **22W E.S. lamp supplied.**

ECO36F

### ESB36W 36W Energy Saver Replacement Bulb

ESB36W

#### ECO36F 36W Energy Saver Floodlight

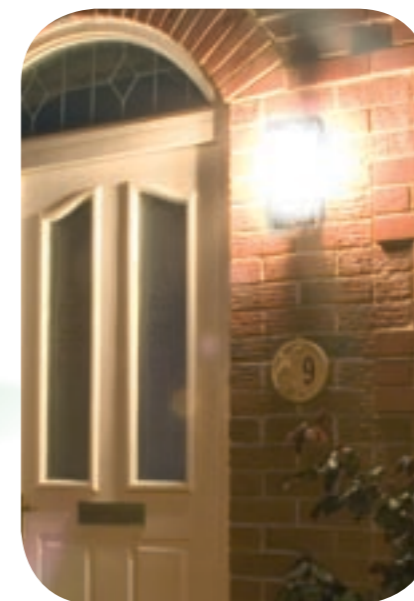

- 75% energy saving\*.
- High output with low running costs.
- \*36W energy saving bulb provides approx. 75% energy saving compared to a standard 150W halogen bulb at approx. 25% of the running cost.
- IP44 weatherproof rating.
- **36W E.S. lamp supplied.**

ECO42F  
ECO26F

#### ECO42F 42W Energy Saver Floodlight with Dusk-to-Dawn Control

- 42W energy saving bulb gives the output of a 200W incandescent light with only 20% of the running cost.
- Automatically switches ON at dusk (adjustable light level sensor).
- Light ON time adjustable for up to 8 hours or automatically switches OFF at dawn.
- Manual override.
- IP44 weatherproof rating.
- **42W E.S. lamp supplied.**

#### ECO26F 26W Energy Saver Floodlight with Dusk-to-Dawn Control

- Shares all the features and benefits of the ECO42F but uses a 26W ES lamp supplied.

ECO18B

#### ECO18B 18W Energy Saver Bulkhead Light with Dusk-to-Dawn Sensor

- 18W energy saving bulb gives the output of a 100W incandescent light with only 20% of the running cost.
- Automatically switches ON at dusk (pre-set light level sensor).
- Automatically switches OFF at dawn.
- IP44 weatherproof rating.
- **18W E.S. lamp supplied.**

ECO18PY

#### ECO18PY 18W Energy Saver Pyramid Bulkhead Light with Dusk-to-Dawn Control

- 18W energy saving bulb gives the output of a 100W incandescent light with only 20% of the running cost.
- 'Any Way Up' installation allows horizontal or vertical mounting, on walls and ceilings.
- Automatically switches ON at dusk (adjustable light level sensor).
- Light ON time adjustable for up to 8 hours or automatically switches OFF at dawn.
- Manual override.
- IP44 weatherproof rating.
- **18W E.S. lamp supplied.**

## ECO Lighting

### Dusk to Dawn Energy Saver Floodlamps and Lamps

Ideal for all outdoor lighting applications where powerful yet economical illumination is required.

Energy saver bulbs generate significantly less heat than halogen equivalents making the range safe for all outdoor applications and with dusk-to-dawn switching control.

Timeguard's ECO range is the right choice for environmentally responsible lighting.

## ECO Lighting

### PIR Energy Saver Lantern

With the output of a 60W incandescent bulb but using only 25% of the power. A built-in sensor for dusk to dawn switching and tough polycarbonate construction make the ECO13L the ideal choice for decorative lighting.

ECO13L

### ECO13L 13W Energy Saver Lantern Light with Dusk-to-Dawn Control

- 13W energy saving bulb gives the output of a 60W incandescent light with only 25% of the running cost.
- Automatically switches ON at dusk (adjustable light level sensor).
- Light ON time adjustable from 2 to 8 hours.
- Automatically switches OFF at dawn.
- Manual override.
- IP44 weatherproof rating.
- **13W E.S. lamp supplied.**

# Security PIR Halogens

NSLB500C

MLW150C

### Security PIR-500 Energy Saving PIR Halogen Floodlights

- Up to 500W of light using energy saving 400W 'C' Class halogen lamp supplied.
- All the features and benefits of our popular 500W PIR Halogen floodlights but supplied with a 400W energy saving halogen lamp.
- Range includes: NSLB500C/NSLW500C MLB500C/MLW500C.
- Visit [www.timeguard.com](http://www.timeguard.com) for full product specifications.

NCFB500C

NCFW150C

### Security PIR-150 Energy Saving PIR Halogen Floodlights

- Up to 150W of light using energy saving 100W 'C' Class halogen lamp supplied.
- Range includes: NSLB150C/NSLW150C MLB150C/MLW150C.

### Energy Saving Halogen Floodlights

- Matching floodlights for NSLB/NSLW Ranges.
- Up to 500W of light using energy saving 400W or up to 150W of light using energy saving 100W 'C' Class halogen lamp supplied.
- Range includes: NCFB500C/NCFW500C/ NCFB150C/NCFW150C.
