PIRfect Solution!

PDFM1500

PDSM1500

Save energy by turning lights off...

Timeguard's new range of PIR Presence Detectors have been designed to switch loads up to 1500W of incandescent, halogen, fluorescent and inductive lighting or a 250W fan when presence is detected. With a 360° enhanced detection area and up to 10m range these powerful units are the ideal choice for all energy saving installations.

...even for a few seconds. Timeguard's Presence Detectors are the PIRfect solution.
