Pan & Tilt Bracket

Model: LEDXSSBRBN – Black
Model: LEDXSSBRWHN – White

Installation & Operating Instructions

1. General Information

These instructions cover the installation of the Pan & Tilt bracket for the LEDXN wide beam floodlight range as specified below. These instructions should be read carefully in full before installation, and retained for further reference and maintenance.

2. Safety

- Be careful with the tools used during installation to prevent accidents or damage.
- If the product is installed without following the designated method, the product may be unstable and cause a safety issue.
- It is recommended that a qualified electrician is consulted or used for the installation of these products and install in accordance with the current IEE wiring and Building Regulations.

3. Technical Specifications

- For use with models;

LEDX10FLBN-WHN	10W LED Wide Beam Floodlights
LEDX20FLBN-WHN	20W LED Wide Beam Floodlights
LEDX30FLBN-WHN	30W LED Wide Beam Floodlights
LEDX10PIRBN-WHN	10W LED Wide Beam PIR Floodlight
LEDX20PIRBN-WHN	20W LED Wide Beam PIR Floodlight
LEDX30PIRBN-WHN	30W LED Wide Beam PIR Floodlight

- CE Compliant

4. Installation

4.1 Ensure that the mains supply to the circuit breaker is switched off and the circuit supply fuses are removed or the circuit breaker turned OFF.

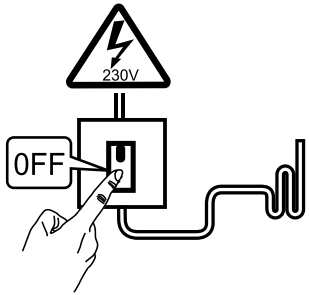

Image 1

4.2 Mark the position of the mounting holes on the wall using the bracket as a template.

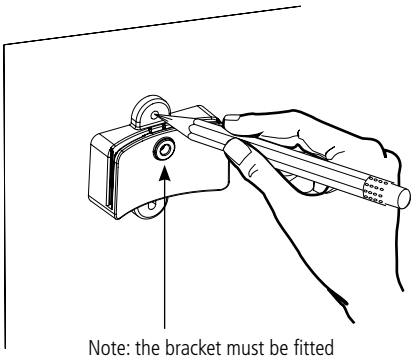

Image 2

Note: the bracket must be fitted this way up i.e. with the hand screw hole at the top

4.3 Drill the holes for the rawl plugs ensuring not to infringe with any gas/water pipes or electrical cables that may be hidden below the surface. Insert the rawl plugs.

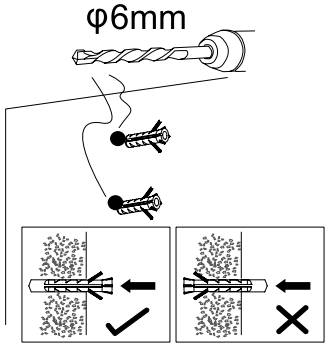

Image 3

3

4.4 Fix the bracket to the wall using the correct mounting screws for the wall plugs installed. Slot in the U- bracket. Make sure it goes to the bottom. Screw in the hand screw just enough to secure into place, but do not over tighten.

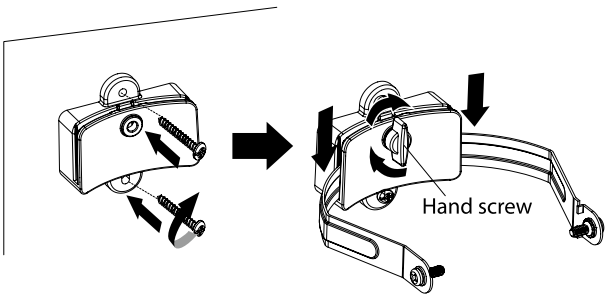

Image 4

4.5 Remove the fixing screws and washers from each side of the bracket, taking note of the order as you remove them.

4.6 Attach the floodlight to the bracket fitted to the wall using the fixing screws and washers previously removed. Screw in on both sides just enough to secure into place, but do not overtighten.

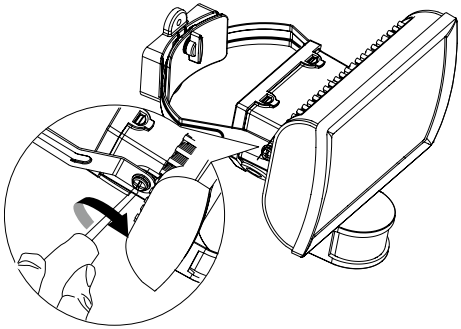

Image 5

4

4.7 Adjust the angle of the floodlight (left and right pan as shown in image 6, up and down tilt where the floodlight is attached to the bracket) so it lights the required area. Finally tighten the fixing screws and hand screw to secure the floodlight into position.
